SUMMARY

Staff Content Designer with extensive experience leading UX content architecture, GenAI interaction models, and multi-modal systems for 3.5 billion users on WhatsApp. Specialized in AI model training, evaluation rubrics, prompt engineering, and cross-functional leadership across Product, Engineering, Research, and Legal to drive data-backed UX quality improvements for AI flagship products.

SKILLS

- **AI & Model Design:** Generative AI, Large Language Models (LLMs), Model Evaluation & Rubric Development, Prompt Engineering, Tone & Value Alignment
- **Content Strategy & Systems:** UX Content Architecture, Multi-modal Interaction Design, System Standards, Information Architecture, Feature Naming
- **AI Trust & Governance:** Disclaimers, Legal Compliance, Error State Handling, AI Transparency

EXPERIENCE

WhatsApp at Meta | Menlo Park, CA
Staff Content Designer | August 2026 – Present

- Lead content designer on Muse for WhatsApp, covering promotional, onboarding, and legal content for Muse subscriptions, activation flows, and identity settings.
- Direct strategic AI media content engineering, marketing, and cross-functional UX content strategy initiatives across Meta AI Expression features.
- Pioneer GenAI model evaluation rubrics and prompt engineering strategies to align Muse AI tone, accuracy, and values in high-density multi-user environments like large group chats.

WhatsApp at Meta | Menlo Park, CA
Senior Content Designer | March 2024 – August 2026

- Defined org-wide GenAI content frameworks, prompt guidelines, and disclaimers, accelerating decision-making across product design teams and unifying AI communication systems.
- Led content strategy for WhatsApp Messaging and AI products for feature onboarding, error states, user education, and complex navigation flows.
- Increased AI image generation by 21% (+180K users) and net new users by 24% through strategic feature rebranding of the label "Imagine" to the more user-friendly "AI images."
- Boosted total AI image sends by 89% by generating new AI background imagery for WhatsApp video calling backgrounds, driving up user engagement.

WhatsApp at Meta | Menlo Park, CA
Content Designer | October 2021 – March 2024

- Led content strategy initiatives simplifying complex security and privacy settings.

Messenger at Meta | Sunnyvale, CA
Content Strategist | March 2020 – October 2021

- Wrote and managed user education content and privacy feature flows for the Messenger app.
